## SUMMARY

---

I am a Final Year Software Engineering student with experience in HTML, CSS and JavaScript, currently advancing ReactJS and NodeJS. I have 1 year hands on experience in software development and eager to apply my knowledge as a frontend developer intern.

## PROJECTS

---

### E Commerce Website

- Developed a responsive and user-friendly website for selling sneakers.
- HTML5, CSS3, JavaScript

### Travel Webpage

- Built a travel planning web page that allows users to create and customize itineraries with a clean and mobile-responsive layout.
- HTML5, CSS3, Bootstrap

### Simon Web Game

- Developed a web-based version of the Simon game with interactive UI and dynamic gameplay.
- HTML5, CSS3, JavaScript

### Portfolio Website

- Created a personal portfolio website showcasing my skills and background.
- HTML5, CSS3, JavaScript

### Real Estate Website

- Created a platform for users to find real estate deals with map support and real-time chat functionality.
- ReactJS, SCSS

## PERSONAL PROJECTS

---

### Sky Chase - Coin Falling Game

- Developed a coin falling game where users catch coins and avoid obstacles, utilizing ScalaFX for smooth gameplay mechanics.
- ScalaFX

### Cosmetic and Skincare E-Commerce App

- Built a mobile app for selling beauty and skincare products, with features like user authentication, shopping cart, Wishlist, and order management.
- Kotlin, Firebase

## SKILLS & INTERESTS

---

### Programming skills

- |              |             |         |          |
|--------------|-------------|---------|----------|
| • HTML5      | Expert      | Node.js | Skillful |
| • CSS 3      | Experienced | SQL     | Skillful |
| • JavaScript | Experienced | React   | Skillful |
